The MxCC Technology Center, hosted by the Computer Club under the supervision of faculty advisor Donna Hylton, is a functional technology service center for MxCC students, faculty, and staff. Further, it is the MxCC Computer Club's hub for hands-on exploration, information sharing, and service learning. At the Center, students are able to hone and apply their technical skills to provide valuable services to our college and community.

"All were so helpful with the repairs I received. I would recommend everyone to take advantage of the services offered by the Technology Center at MxCC. I can not thank them enough for all the help they provided to me..."

- Lisa Barrett, MxCC Student

"Excellent job in every way."

- Professor Tad Lincoln, MxCC Faculty

Mission & Vision

In all it does, Middlesex Community College strives to be the college of its community. By providing high quality, affordable, and accessible education to a diverse population, the College enhances the strengths of individuals through degree, certificate, and lifelong learning programs that lead to university transfer, career opportunities, and an enriched awareness of our shared responsibilities as global citizens.

About MxCC

At Middlesex Community College you'll get personal attention from dedicated professors in small class settings; guidance from experienced counselors and advisors who will help you clearly define and achieve your goals; programs that will help you launch or build your career in some of today's fastest-growing fields; and, affordable tuition that saves thousands over the average cost of most four-year colleges.

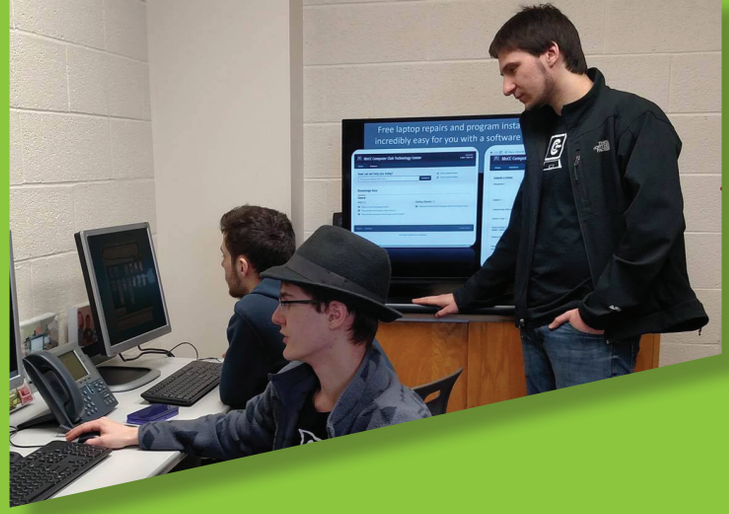
A Service-Learning Center

The Technology Center's mission is to provide free computer services to MxCC students,faculty, and staff. The Center is staffed by students who use their technical expertise to render vital computer services to the campus community. The Technology Center is equipped with state-of-the-art computer equipment that provides a safe environment for students to explore and learn. It also offers Lynda online video training courses to students, free of charge. It is a service-learning environment.

"The level of knowledge about what needed to be done was great! I will definitely use the service again if I need it. I did recommend the service to another student in my ceramics class."

- Lynette Lindner, Student



Services we offer at the Technology Center:

Office 365 installation

- *We can help you install your free Office 356 software (Word, Excel, Access, PowerPoint, etc.), if you have a valid MxCC student email and banner ID.*

Malware Removal

- *We remove malware (ex. trojans, adware, viruses, etc.) from your computer.*

PC Tune-Ups

- *We diagnose and speed up your slow running computer.*

Hardware Repair

- *We troubleshoot and repair many hardware problems.*

Data/System Backup

- *We can help you backup up your computer system and personal files.*

Data Recovery

- *We can recover your important files and data when your operating system fails.*

Other Services

- *We can assist you with other technology related issues. Stop in with a technology related questions and we will help or direct you to the proper resource.*

e-Cycling:

During Earth Week the Computer Club partners with Green Monster to host a free e-cycling collection event. Anyone with old or unused electronics is invited to bring them to campus for easy, safe, environmentally sensitive disposal. Items may also be dropped off for e-cycling at the Technology Center prior the event.

Computer Giveaway:

Every year, the Computer Club accepts essays from students who express the need for their own laptop. A panel of judges, featuring students, faculty, and staff, read the essays and recommendations the writers gather from professors. The entries are ranked using a rubric that addresses different criteria, including the persuasiveness, and the amount of need expressed. The Computer Club then purchases laptops for deserving students using donations they collect at their E-Cycling Event and from generous students, faculty, and staff who, after receiving services from the Technology Center, opt to contribute.
