MIDDLESEX COMMUNITY COLLEGE

SCHOOL OF RADIOLOGIC TECHNOLOGY

PROGRAM MISSION STATEMENT

The Middlesex Community College Radiologic Technology Program is dedicated to educating and training students to become certified, professional, and competent technologists in the field of Radiologic Sciences.

The mission statement is realized through the attainment of the following Goals:

1. Students will be clinically competent.
2. Students will use critical thinking skills in both routine and non-routine clinical situations.
3. Students will demonstrate professional behaviors.
4. Students will communicate effectively.

Student Learning Outcomes

1. Students will correctly apply positioning skills.
2. Students will make necessary adjustments in positioning for non-routine patient procedures.
3. Students will select appropriate technical factors for routine patient procedures.
4. Students will modify technical factors for non-routine patient procedures.
5. Students will practice radiation safety.
6. Student will use effective oral communication skills.
7. Student will practice written communication skills.
8. Students will demonstrate professional behaviors.

Radiologic Technology Statistics and Accreditation Status

Program Accreditation Status:

The MxCC Radiologic Technology Program has been accredited since 1970 by the Joint Commission on Education in Radiologic Technology (JRCERT), 20 N. Wacker Drive, Suite 2850, Chicago, IL 60606-3182. The Joint Commission on Education in Radiologic Technology mission promotes excellence in education and elevates the quality and safety of patient care through accreditation of educational programs in radiography, radiation therapy , magnetic resonance and medical dosimetry. The program is currently awaiting the outcome following the December 2013 site visit for reaccreditation. Address all electronic inquiries to mail@jrcert.org For More information regarding program effectiveness data visit the JRCERT website at www.jrcert.org

Please NOTE:

Applicants who have been involved in a criminal proceeding or who have been charged with or convicted of a crime may file a request for pre-application review with the American Registry of Radiologic Technologists, (ARRT) in order to obtain a ruling on the impact of the situation on their eligibility for certification or registration. A charge or conviction of, a plea or guilty to, or a plea of nolo contendere (no contest) to an offense that is classified as a misdemeanor or felony constitutes a conviction for ARRT purposes. This includes situation in which the result is deferred or withheld adjudication or suspended or withheld sentence. Other reportable offenses include Regulatory Authority of Certification Board violations, such as an action by a state or federal regulatory authority or certification board resulting in the individual's professional license, permit, registration, or certification being denied, revoked, suspended, placed on probation, or subjected to any conditions. Honor Code violations such as a suspension, dismissal, or expulsion from an education program attended in order to meet ARRT certification requirements must be reported. Military court-martials must also be reported. The form that is necessary to file such a request and a complete explanation of the process can be found on the web at www.arrt.org under the Ethics section.
