Middlesex Community College—Meriden Campus
Student Course Outline
Life Span Development

Course #: 2077 Psy F201
Semester: Summer 2013
Meeting Time/Location: On-Line
Semester Hours: 3
Instructor: Christopher Arnold M. A.
Work: Albert J. Solnit Children’s Center 860-704-4230
Office Hours: By appointment
Email: Use Blackboard Email
carnold@txcc.commnet.edu if system fails or emergency

This outline is offered as a guide to the semester and is subject to change at the instructor’s discretion.

Course Description:
This course will examine human development from conception through death. Theories pertaining to physical, cognitive and psychosocial development will be explored and applied to the developmental tasks which face the individual throughout the lifespan. Care will be taken to view human development as a process of adaptation to the biological, psychological, sociological and cognitive challenges which are continuously presented to the growing person. Due to the fact that we explore the individual within the context of ethnic, religious and cultural diversity, this course qualifies as a “D” course, thereby meeting the graduation requirement.

Textbook:
Development Across the Life Span, 6th edition,
Author: Robert Feldman
Course Objectives:

By the end of the course, students should be able to:

1. discuss various theoretical approaches to development
2. demonstrate a general knowledge of human development
3. appreciate the person within the context of his/her psychosocial/cultural/ethnic environment.
4. understand aspects of scientific research, and how this contributes to understanding human development.
5. apply knowledge acquired to one’s personal development.

Disability:

If you have a hidden or visible disability that may require classroom or test taking modifications, please inform me as soon as possible. Students with physical or learning disabilities who may require accommodations are encouraged to contact the counseling office.

Instructors Message:

My goal is for students to learn and comprehend the material presented to them. Any difficulty a student may encounter should be discussed with the instructor to determine the best plan for achievement.

Academic Ethics:

At Middlesex Community College, we expect the highest standards of academic honesty. Academic dishonesty is prohibited in accordance with the Board of Trustees’ Proscribed Conduct Policy found in Section 5.2.1 of the board of trustees’ Policy manual. This policy prohibits cheating on examinations, unauthorized collaboration on assignments, unauthorized access to examinations or course materials, plagiarism, and other proscribed activities.
Plagiarism is defined as the use of another’s ideas or phrase(s) and presenting those ideas as your own, either intentionally or unintentionally. The use of Website or library materials without proper citation is a form of academic dishonesty and will not be tolerated. Students found guilty of academic dishonesty will receive a “Failing” grade in the course.

If one cannot state a matter clearly enough so that even an intelligent twelve-year-old can understand it, one should remain within the cloistered walls of the university and laboratory until one has a better grasp of one’s subject.

--Margaret Mead

Grading/Evaluation:

Classroom Observation or Individual Interview and Reaction paper, Due 7/24/13: 25%
Each student has the choice to either observe children in the classroom setting or interview an individual who is fourteen or older and then write a paper discussing how their interviewee’s reflect the developmental issues we are exploring in the course.

If you chose to do classroom observation, you may observe infants, toddlers or young children in a childcare setting or older children in a school classroom setting. You will observe 2 of the 3 domains of development, psychosocial, cognitive and or physical development and then reflect in your paper how the children reflect the development theories presented in the course.

If you chose to interview an individual, the individual must be either an adolescent 14-19 years old, a young adult, 20-40 years old, or a middle age 41-65 yrs. old. Your interview will include questions which reflect the developmental milestones and issues of the chosen age period. Your paper will include the questions/answers and discussion of how the person you chose to interview reflects the theories presented in class or that you’ve researched.
Your reaction paper must reference the theories mentioned in the text, , and should be at least five pages but no more than seven pages. Be sure to proof your final product prior to submitting.

Weekly Discussion Board Participation  20% Each week you will be assigned 2 discussion questions that require your response. In order to receive full credit for the discussion board, you must log on a minimum of three days weekly and respond to the current question as well as interact with your classmates. You must respond to at least one other posting in order to receive full credit. You will be graded on how completely you answer the assigned discussion question and by the quality of your responses to the other postings. Your use of critical thinking skills, conducting research on the discussion question and applying knowledge from your readings will be assessed. No credit will be given should you log on after one week. The discussion board is available Monday 1:00am to the following Sunday Midnight Eastern Standard Time. No postings accepted after Sunday Midnight Eastern Standard Time. The weekly discussion assignments are work 15 points each.

Part I. Points for the Answers to the Questions (12 Points)

Part II. Points for the Responses to Others

3 Points: Responded to at least ONE message with explanations.
1 Points: Responded to at least ONE messages without explanations.

0 Points: Does not respond to any one.

Developmental Autobiography:

The developmental autobiography will be the result of your collection of anecdotal information from the milestones of your physical, psychosocial, and cognitive development from conception through your current phase of development. Components of normal development for each phase of development will be applied through your own recollection and the stories you gather from significant others in your life who have been part of your growth and development.

Due: 7/24/13, midnight: 25%

Exam #1 posted 7/1/13, 1:00 am and due 7/7/13, midnight: 15%

Final Exam posted 7/19/13, 1:00 am and due 7/24/13, midnight: 15%

Submit exams in Assignment Drop box.

Topical Outline

Due dates for the discussion question student responses are listed below the chapter title as well as due dates for discussion responses to other postings by other students.

Chapter 1  Week 1  6/17-6/23  An Introduction to Life-Span Development
Chapter 2  The Start of Life: Prenatal Development
Chapter 3  Birth and the Newborn Infant
Chapter 4  Infancy – Physical Development
6/22 due date for student response - 6/23 due date for discussion comments

Chapter 5  Week 2  6/24-6/30  Infancy - Cognitive Development

Chapter 6  Infancy - Social and Personality Development

Chapter 7  Preschool Years - Physical, Cognitive Development

Chapter 8  Preschool Years - Social and Personality

6/29 due date for student response - 6/30 due date for discussion comments

Chapter 9  Week 3  7/1-7/7  Middle Childhood - Physical, Cognitive Development

Chapter 10  Middle Childhood Years - Social and Personality

Chapter 11  Adolescence - Physical, Cognitive Development

Chapter 12  Adolescence - Social and Personality Development

7/6 due date for student response - 7/7 due date for discussion comments

Chapter 13  Week 4  7/8-7/14  Early Adulthood - Physical, Cognitive Development

Chapter 14  Early Adulthood - Social, Personality Development

Chapter 15  Middle Adulthood - Physical, Cognitive Development

Chapter 16  Middle Adulthood - Social, Personality Development

7/13 due date for student response - 7/14 due date for discussion comments

Chapter 17  Week 5  7/15-7/21  Late Adulthood - Physical, Cognitive Development

Chapter 18  Late Adulthood - Social and Personality Development

Chapter 19  Death and Dying

7/20 due date for student response - 7/21 due date for discussion comments
