**Program Mission Statement**

The Middlesex Community College Radiologic Technology Program is dedicated to educating and training students to become certified, professional, and competent technologists in the field of Radiologic Sciences.

The mission statement is realized through the attainment of the following goals:

1. Students will be clinically competent.
2. Students will use critical thinking skills in both routine and non-routine clinical situations.
3. Students will demonstrate professional behaviors.
4. Students will communicate effectively.

**Student Learning Outcomes**

1. Students will correctly apply positioning skills for routine patient procedures.
2. Students will make necessary adjustments in positioning for non-routine patient procedures.
3. Students will select appropriate technical factors for routine patient procedures.
4. Students will modify technical factors for non-routine patient procedures.
5. Students will practice radiation safety.
6. Students will use effective oral communication skills.
7. Students will practice written communication skills.
8. Students will demonstrate professional behaviors.

In addition to the above mentioned goals and student learning outcomes, benchmarks formulated to indicate Program effectiveness include:

- A first attempt ARRT credentialing exam pass rate of 100%
- Annual Exit Survey Evaluation Average of 90% for student satisfaction with their education
- Annual Employer Satisfaction Survey Average of 2.0 on a 3.0 scale for employer satisfaction with graduate’s performance
- A five year average job placement rate within 6 months of Program completion of ≥ 80 %

The Program’s mission is achieved when the graduate has successfully completed and achieved all Program Goals and Outcomes. The program mission complements the missions and values of our affiliate sites.
