

Instruction – Download, Install, and Setup Mozilla Firefox for your web browser

This instruction is for PC users, instruction for Mac users is similar.

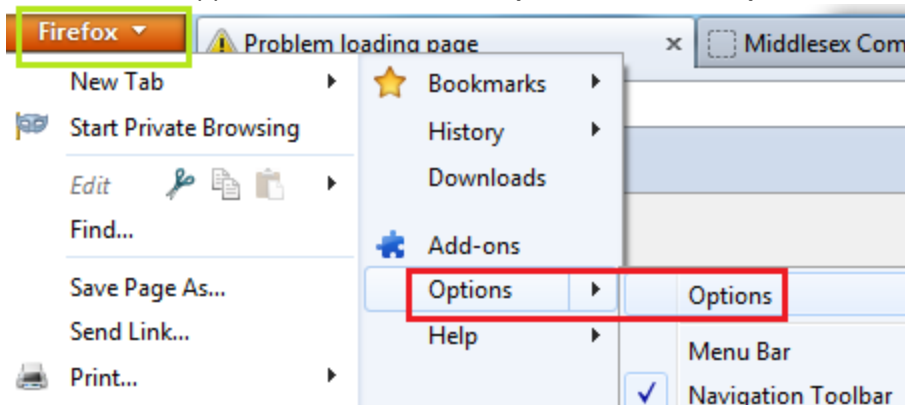

1. **Download:** Go to **MxCC Distance Learning** site at <http://mxcc.edu/distance>. Click on **Technical Help** link in the left navigation bar. Click on **Download Center** (bottom-left), click on **Mozilla Firefox (PC)**. Click **Save** button to save the file to your computer.

2. **Install:** Install the Mozilla Firefox browser to your computer by double-clicking the downloaded file named **FirefoxSetup.exe** file. Click **Run** to install the browser to your computer.

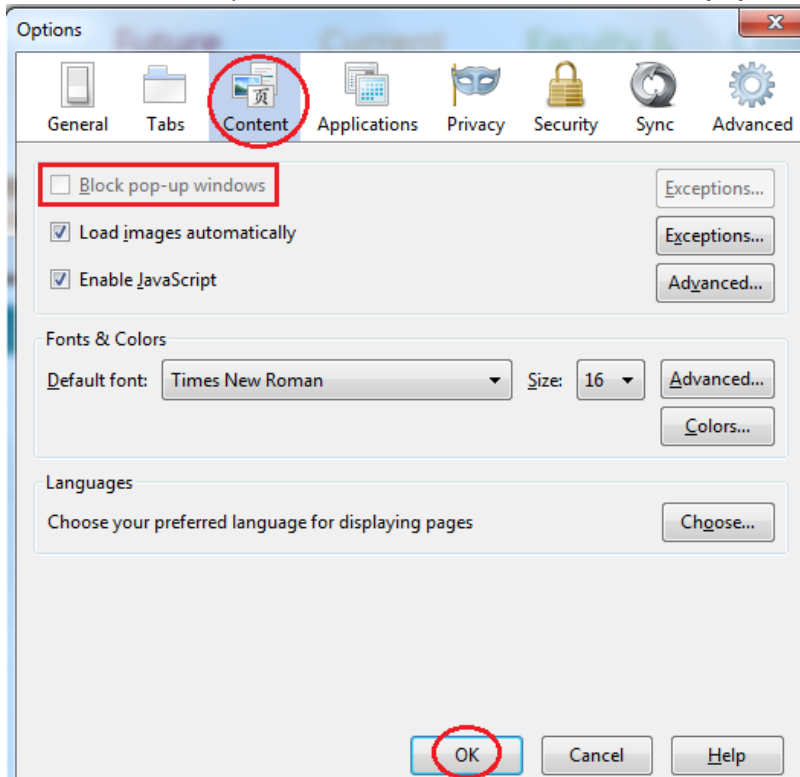

3. Setting:

a. To ensure Blackboard fully function, you need to **disable the pop-up blocker** in Mozilla Firefox. Once the Mozilla Firefox is successfully installed, you will see an icon on Desktop. Double click the **Firefox** icon to open it.

b. Go to **Firefox tab** at upper left corner, click on **Options** and select **Options**.

c. Select **Content** on the top row of the window. Uncheck **Block Pop-up Windows**. Click **OK**.

4. You may close the browser, re-open it, and then log on to Blackboard.
