Tests in Blackboard

- There are two ways to build an online test.
 - Build a test from scratch.
 - Import a testbank provided by your textbook publisher and create a test using testbank questions.
- Tests and Pools
 - In Blackboard, a “Pool” holds a group of questions in Blackboard.
 - Tests can be created using the questions created from scratch or imported in Pools.
 - For students to see a test, a test needs to be placed in a content area. This process is called “deploying”. In other words, a test can be accessible by students only when it has been deployed to a content area.

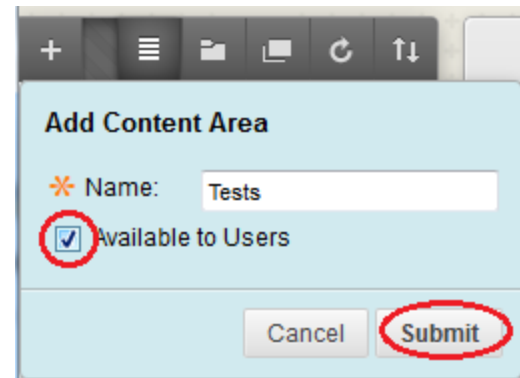

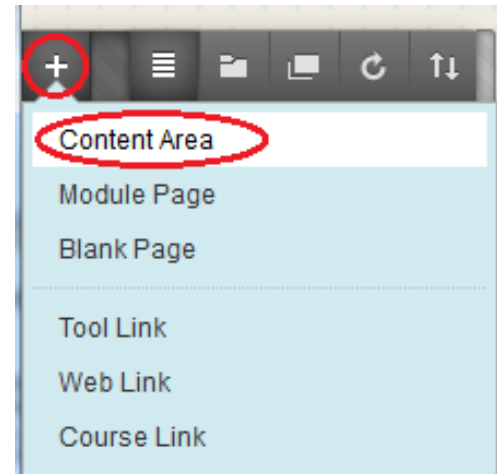

Create Online Tests from Scratch

- When a test has a limited number of questions, you may create a test from scratch.
- Steps
 1. Add a “Tests” content link to “Course Menu”.
 2. Create a Test in Course Tools>Tests, Surveys, and Pools.
 3. Deploy the test.
 4. Set up Test Option

Example: Create a quiz with a multiple choice question, a short answer question, and an essay question.

Step 1, Add “Tests” Content Link to Course Menu

- Click on the “+” on the upper left corner of the Course Menu.
- Choose “Content Area”.
- Type “Tests” in the Name box.
- Check “Available to Users”.
- Click on “Submit”.
- The newly created “Tests” link is placed at the bottom of the Course Menu. You may move it up by dragging the move icon and drop the link to a position of your choice.

Step 2, Create a Test in Course Tools>Tests, Surveys, and Pools

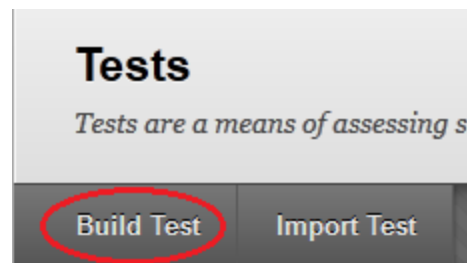

- In “Control Panel”, click on “Course Tools” and select “Tests, Surveys, and Pools”.
- Click on “Tests”.

Tests, Surveys, and Pools

Tests

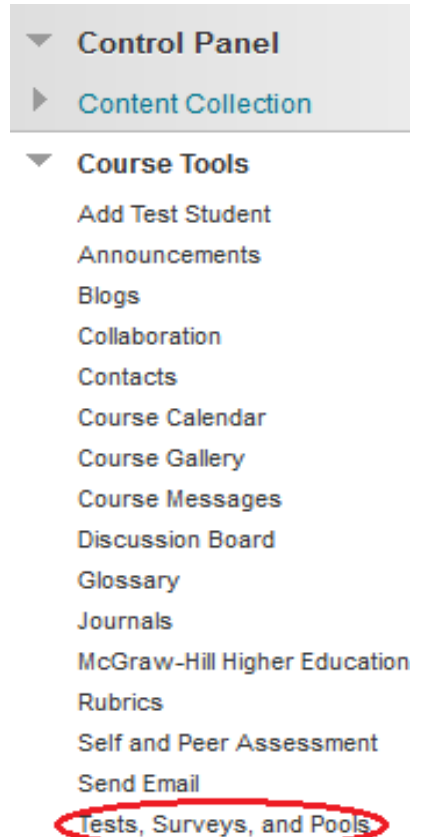

Tests are sets of questions that are graded to measure the student's knowledge. Test results are reviewed in the Grade Center.

- Click on “Build Test”.

Tests
Tests are a means of assessing student knowledge.

Step 3, Deploy a Test

- After a test has been created, you will need to deploy it to a content area for students to access.
- Click on the “Tests” link in the “Course Menu”.
- Go to Assessments, select “Test”.
- Choose the test you just created, click on “Submit”.

The screenshot displays a course management interface. On the left, a sidebar menu for 'CCC DL Test Course' includes 'Announcements', 'Course Content', 'Messages', 'Tests' (circled in red), 'Course Gallery', 'Kaltura Test', and 'myMessages'. The main area is titled 'Tests' and shows a 'Folder empty' message. A navigation bar at the top has 'Build Content', 'Assessments' (circled in red), and 'Tools'. The 'Assessments' dropdown menu is open, listing 'Test' (circled in red), 'Survey', 'Assignment', 'Self and Peer Assessment', 'Mobile Compatible Test', and 'McGraw-Hill Assignment'. On the right, a '1. Add Test' dialog is shown with two options: 'Create a New Test' with a 'Create' button, and 'Add an Existing Test' with a dropdown menu. The dropdown menu is open, showing 'Select Test Below --' and 'Quiz1' (circled in red).

Step 4, Test Options

- Under “2. Test Availability”, check “Yes” in “Make the Link Available” and “Add a New Announcement for this Test”.
- Check “Set Timer”, choose the test duration.
- Check “ON” in Auto-Submit.
- Set up the release date and time in “Display After”.
- Set up the due date and time in “Display Until”.
 - Using “Display Until” makes students unable to take the test after the date/time.
- Using “Due Date” enables students to take the test after the set due date but their test attempt will be marked late.

Enter dates as mm/dd/yyyy. Time may be entered in any increment.

Display Until

Enter dates as mm/dd/yyyy. Time may be entered in any increment.

Step 4, Test Options

- Under “5. Test Feedback”, check “Submitted Answers”. This is for student to review their own answers after they have finished a test.

5. Test Feedback

Select the Type of Feedback Displayed Upon Completion

- Score
- Submitted Answers
- Correct Answers
- Feedback

- Click on “Submit”.
- To **revise a test setting**, click on the action icon next to the test name and select “Edit the Test Options”. Change a setting and click on “Submit”.

Student View-Take a Test

- You may log on as a student to see how your students take a test and view a test result.
- Add Test_Student account in Blackboard
 - Under “Control Panel”, click on “Course Tools”, and click on “Add_Test_Student”.
 - You will see your username as “ID_ts”.
 - Enter the password of your choice twice.
 - Click on “Submit”.

- Log on as a Test_Student

- Log out Blackboard by clicking on the Logout icon at upper right corner.
- After you have logged out, you will be directed to the logon page of Blackboard.
- Enter your test student account, ID_ts, and password.
- At the My Blackboard page, click on “Courses” at upper right. Within SEVEN days before the first day of your course, you will see the course listed.
- Click on your course.
- Click on “Tests” link in the “Course Menu”.
- Click on the test link and click on “Begin”.
- When you are done with the test, click on “Save and Submit”.
- The short answer question and essay question are pending for professor to grade.

2. Password

Enter the password you wish to use for this Test Account

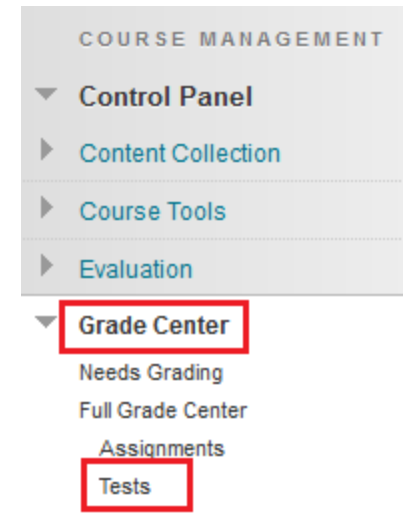

★ Password

★ Confirm Password

A screenshot of the Blackboard login page. The page has a light beige background with a pattern of small grey dots. At the top, the text "Blackboard" is in a large, bold, dark grey font, and "learn" is in a smaller, lighter grey font below it, with a green plus sign to the right of "learn". Below the logo, there are two input fields. The first is labeled "USERNAME:" and contains the text "00705945_ts". The second is labeled "PASSWORD:" and contains a series of black dots. Below the password field is a blue button with the word "Login" in white text.

Grading a Test

- Multiple choice questions will be graded automatically in Blackboard.
- Instructors need to grade Short Answer and Essay questions.
- Under “Control Panel”, click on “Grade Center”, and click on “Tests”.
- A green notation sign in the test for a student indicates the test is pending for grading. Click on the notation and select “Attempt...”

Instructions When you are ready to take the quiz, click on Begin

Build a Test from a Testbank

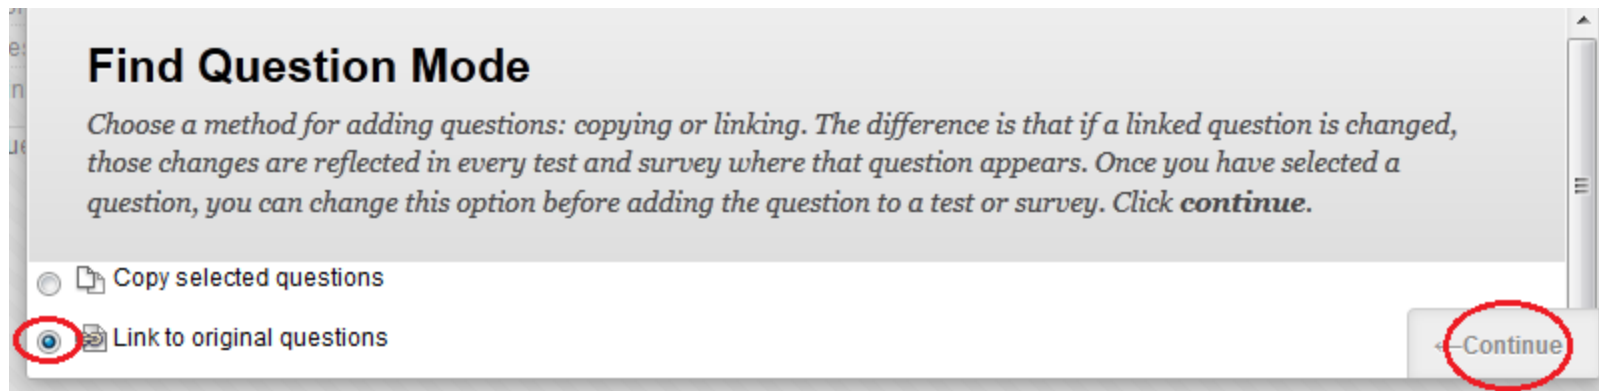

- It seems tedious to manually build a test using a good amount of multiple choice questions. In this case, you are advised to use a testbank provided by your textbook publisher.
 - Contact your textbook rep. to provide you an access to the testbank that is compatible with Blackboard.
 - Following the instructions provided by the textbook publisher to import the testbank to Blackboard.
 - You may create a test in an application outside of Blackboard such as E-Z Test or ExamView first and then import the test to Pools in Blackboard.
 - After you have obtained the testbank and the instructions on how to access the testbank, you may contact Distance Learning staff to help you import the testbank to Blackboard and build a test in Blackboard using imported questions.

Create a Test Using Testbank Questions

- The steps of creating a test using testbank questions are very similar with those of creating a test from scratch.
 1. Add a “Tests” Content Link to “Course Menu”.
 2. Create a Test in Course Tools>Tests, Surveys, and Pools.*
 3. Deploy the Test.
 4. Set Up Test Options
 - a. If you create a test in an application provided by your publisher and import the test to Blackboard “Tests”, you can skip Step 2.
 - b. If you import testbank questions to “Tests” or “Pools” or a test created outside Blackboard is imported to “Pools”, you will do all four steps in which the only difference is in Step 2 that you will need to choose imported questions instead of creating questions. The rest of the three steps are the same.

Create a Test Using Existing Questions

- Step 1. Create a “Tests” content link in the Course Menu. Refer to “Slide 4”.
- Step 2. Create a Test
 - Click on the “Tests” link in the “Course Menu”.
 - Go to Assessments, and select “Tests”.
 - Click on “Create” tab. Type the test name and brief description. Click on “Submit”.
- Go to “Reuse Question” tab and select “Find Questions”.
- Choose “Link to original questions”. Click on “Continue”.

Step 2. Finding Questions and Steps 3 and 4

- Depending on where the test questions have been imported,
 - If the questions have been imported to “Pools”, click on “Pools” in upper left panel. Choose a category such as “Chapter 1”.
 - If the questions have been imported to “Tests”, click on “Tests” in upper left panel. Choose a test such as “Chapter 1”.
- Choose the questions you would like to add to the test.
- Click on “Submit”.
- You may change the point distribution (refer to Slide 10) . Click on OK when you are satisfied with the point distribution of the test.

The screenshot shows a web interface for managing test questions. On the left, a sidebar titled "Browse Criteria" has a "Pools" section highlighted with a red box. Below it, the "Tests" section is expanded, showing "All Tests", "Quiz1" (checked), and "Quiz2". The main area displays a table of questions, with the first three rows highlighted in yellow and their checkboxes checked. A red box highlights the checkboxes for the first three rows. The table has columns for "Question Text", "Question Type", "Mode", "Points", "Source Name", and "Source Type".

<input checked="" type="checkbox"/>	Question Text ▲	Question Type	Mode	Points	Source Name	Source Type
<input checked="" type="checkbox"/>	Question1: How many community colleges are there in the state of Connecticut?	Multiple Choice	Link	5	Quiz1	Test
<input checked="" type="checkbox"/>	Question2: Which city does Middlesex community college locate in Connecticut?	Short Answer	Link	10	Quiz1	Test
<input checked="" type="checkbox"/>	Question3: What are your academic goals?	Essay	Link	15	Quiz1	Test

- Step 3 and Step 4, refer to “Slide 11” to “Slide 13”.
