Prepare to meet with An Advisor

When you enroll in college, we create a partnership to help you achieve your educational and career goals. This guide prompts you to be prepared to understand what the demands of college will be and what to expect as you make your transition to college. Quality academic advising allows you to accomplish those goals in a timely manner while being in control of your own educational endeavors. Taking time to consider and plan your educational experience is essential to getting off to a good start. Your readiness is critical to having a successful experience.

Please consider the following prior to meeting with an advisor:

1. Your reasons for attending college and your time availability.

The New Student Orientation site is a good place to start for familiarizing yourself with the college, its academic programs and its resources. It has a wealth of content and checklists to guide you.

www.mxcc.edu/nso

2. How you are financing your education.

Students receiving financial aid are expected to review the Financial Aid webpage: www.mxcc.edu/financial-aid to understand the types of financial aid and how the process works including understanding the Satisfactory Academic Progress guidelines for maintaining eligibility to receive aid awards. The website also houses comprehensive financial and scholarship information which is useful for all students.

3. Your comfort level and willingness to utilize computer technology.

It is the expectation of the college that you will use computer technology to submit written assignments and learn the college's online learning platforms and various course management software packages.

We encourage students to take the Smarter Measure Assessment: it is a self-diagnostic tool that assesses student's likelihood for succeeding in learning online, as well as, to use online tools in onground courses. www.mxcc.edu/distance/take-a-smartermeasure-test/

4. If you are transferring or have earned Early College Academy (ECA), College Career Pathways (CCP), UConn Early College Experience, or Advanced Placement credits.

To assure quality advising, we need to review the OFFICIAL transcript from your previously attended institution. Your transcript should be forwarded to the Office of Enrollment Services in advance of your advising meeting for evaluation of transferrable credits. This includes any courses taken while in high school as part of the UConn Early College Experience, MxCC Early College Academy, College Career Pathways, or Community College High School Partnership programs.

During your conference with an advisor, we will work with you to identify and select courses based on your level of proficiency in reading, writing and math and those which are required by your chosen educational pathway. We will ask questions that facilitate selection of appropriate courses. The advising process should be a conversation. Ask questions to clarify information and take notes. Faculty and staff advisors are here to assist you in the decision making process; you ultimately are responsible for your education. The name and contact information of your assigned Primary Advisor will be available to you via MyCommNet within a few weeks. If you are enrolled in a degree program, the Program Coordinator will be your Primary Advisor.

Questions you should be prepared to discuss and answer are:

- What are your reasons for attending college?
- Are you planning to be a part-time (11 credits or fewer) or full-time (12 credits or more) student?
- Are you working? How many hours per week do you plan to work?
- How many hours per week do you devote to other obligations? (such as family, childcare etc.)
- Do you have a sense of a curriculum / program/ major/ career direction? (If not, the college has professional staff who can guide you once classes begin.)
- Have you reviewed the virtual college catalog and schedule of courses to see what courses are interesting and available?
- If you are interested in taking online courses, do you have the necessary computer skills and computer access?
- How long has it been since high school? What kind of student were you in high school?
- What are your academic concerns?

Course Cancellations and Changes

MxCC does all it can to ensure that every course offered runs as scheduled. Unfortunately, courses may be cancelled due to insufficient enrollment or circumstances beyond the college’s control. Students will be notified by mail, email or phone of course cancellations. Faculty names and room assignments are subject to change due to required adjustments in the schedule.

Course Changes

Students may add courses or drop courses from their Spring 2018 schedule in person Monday – Friday 9:00 am – 5:00 pm in the Office of Enrollment Services in Founders Hall, room 153. Please call in advance as office may be periodically closed, 860-343-5719.

Auditing Courses

Students who do not desire to earn course credit may “audit” a course by completing an Audit Request Form at the time of registration in the Office of Enrollment Services. During the fall term, the student has four weeks from the start of the class to submit the completed form to the Office of Enrollment Services. This status will allow students to participate in class activities without being required to meet the examination requirements of the course. Full tuition and fees are charged for audited courses. Students auditing a course may not change to credit status.

Graduation

November 10, 2018 is the deadline to file your graduation application for fall completion. April 16, 2018 is the deadline date to file your graduation application for spring/summer to ensure that your name will be included in the graduation program. Applications received after this date will still be processed for degree certification but **your name not appear in the graduation program**. Graduation applications/checklists may be obtained in the Office of Enrollment Services or through your advisor.

Enrollment Verification Request

The National Student Clearinghouse processes all student enrollment verifications. Log on to myCommNet with the 8-digit NetID number and PIN, and follow the prompts. Students will be connected directly to the National Student Clearinghouse enabling them to print their own enrollment verification certificates. Verifications for the Spring 2018 semester will be accessible the week of September 25, 2017.

Grades/Transcripts

Grades are no longer mailed to students directly. Semester grades will be available online. Students unable to access the Web may request an unofficial transcript in writing; forms are available in the Office of Enrollment Services, room 153, through MyCommnet at <http://my.commmnet.edu>.

To print an unofficial transcript or view grades, please follow the directions for registering with the exception of clicking the Student Records tab.

Student Email Accounts

All Connecticut Community College students now have an official email address (example: name@mail.ct.edu). The “name” in the address is the first letter of your first name, followed by the first four letters of your last name, followed by a four-digit number (e.g., John Smith might have the address jsmit1234@mail.ct.edu). All college-based communications will be sent to this e-mail address. To view your college email account, go to <http://portal.microsoftonline.com> and log in with your NetID and password. For step-by-step directions on accessing your email, visit mxcc.edu/student-email.

Distance Learning Online/Hybrid Courses

<http://mxcc.edu/distance>

Distance Learning courses at MxCC are fully or partially (Hybrid) online and are designed for highly motivated students taking credit courses with a flexible schedule. Most of our fully online classes (ONLN code in MyCommNet) are asynchronous. Our distance learning credit online/hybrid courses follow the standard academic calendar of the college and are available online 24 hours a day, 7 days a week. Students do not need to sign on at a specific time. Just like a traditional class, you must follow the course syllabus with information on reading, assignments, projects, exams, etc. An online faculty is assigned to teach each course and help students succeed. Under the guidance of a syllabus, you study on your own with the help of a textbook, instructor's notes, and online resources. You will submit assignments or take exams online at your convenient time and location by a designated timeline. Basic computer literacy, access to the Internet with broadband connection, and specific setup of your computer are required. Most importantly, a self-motivated, self-disciplined learner is more likely to succeed in online learning. Information about online distance learning at MxCC can be found at <http://mxcc.edu/distance>.

BEFORE YOU START

Students who are interested in distance learning courses are strongly recommended to take a self-assessment test, SmarterMeasure. The test helps you find out whether you have the skills to be successful in online learning. To take the test, go to <http://mxcc.edu/distance>, click on "Take a SmarterMeasure Test" link (upper left).

Immediately after registration, Distance Learning (online or hybrid) students **MUST** visit <http://mxcc.edu/distance>. Click on "What to Do link" (upper left) for step-by-step instruction on what you need to do prior to the beginning of a semester. **First time online students at MxCC are strongly encouraged to attend an on-campus orientation. Tentative schedule** is below. For the most updated orientation schedule, please visit <http://mxcc.edu/distance> (click on **Campus Orientation** link on the left panel).
