V: CURRENT EVENT SUMMARIES:

Since there are many interesting articles constantly being published in law enforcement magazines, scholarly journals, and on the internet concerning the Criminal Justice System, students will read at least three of these articles and summarize their findings. Learning to summarize research articles is an invaluable skill that will greatly assist students in their academic and professional careers. Students will be assigned to complete 3 **Article Summaries**. The two highest grades for these summaries will be counted into the final grade (thus a student can miss only one). Students must get the article pre-approved by the instructor prior to completing the summary.

The main objective of this exercise is for student to become familiar with scholarly sources in the form of peer reviewed journal articles. Students will also learn how to identify the main points in the article and summarize the findings. In the summary, students must explain how the article relates to some part of the course. Does the information seem correct or do you question the information in the article?

Your summary should answer the following questions:

- What are the main points in the article?
- The summary must be in your own words – minimize the number of direct quotes to 1 or 2.
- How does the article relate to the course?
- Does the information in the article seem correct or is it misleading? Yes, No, and Why?

Summary Requirements:

- 3 pages in length – no more no less (refers only to the body of the summary)
- 12 font – Times New Roman – 1-inch margins – 1.5 spacing.
- Proper citation of the article using APA guidelines.
- Proper grammar, punctuation, and sentence structure
- Please note that all rules in regards to plagiarism and proper citations must be followed
- When you have a question about citing information correctly – ASK FOR HELP!

All Current Event Summaries must be submitted to the instructor electronically via Blackboard. Current Event Summaries are due by 11:59 pm on the due date. Late work will not be accepted.

- **Cheating of any kind will not be tolerated and will result in a grade of “F” for the course and immediate referral to the Academic Dean for further disciplinary action.**

VI: DISCUSSION FORUMS: RESPONSE QUESTIONS:

DISCLAIMER: The views and opinions expressed in articles discussed during this class are those of the authors’ and do not necessarily reflect the official policy or position of Middlesex Community College or Professor Moore. Each chapter has at least two questions in which students must respond. Students will select set of chapter questions and write a response. The chapter questions are located in Blackboard within each discussion. Students must complete **all 5** forum discussions.

Each student must post his/her individual response to the chapter discussion questions on the Discussion Board by 11:59 pm on Wednesdays. Late submission should be avoided; however, students can still submit response posts for partial credit.

Students must interact with at least two other students in the course by posting questions and addressing the initial posts of **TWO** of their classmates. Response posts are due by Sunday evening, 11:59 pm. These responses must be informative and contribute to the advancing knowledge of the topic. “Good job,” or “nice post,” are not acceptable. Please note that the final discussion board responses are due by 11:59 pm on Nov. 4th.

Initial Post: Discussion Question Requirements: Due Wednesdays

Students will research their topic and present their findings. The project will consist of 4 parts: a topic, thesis statement, paper, and a power point presentation. Further instructions will be provided in class as well as posted under the "Research Project" link on Blackboard.

The main objective of this exercise is for students to become familiar with scholarly sources in the form of peer reviewed journal articles. Students will also learn how to identify the main points of the articles, summarize their findings, and present them to their peers.

Syllabus Quiz: During the first week of class, students will take a brief quiz on the syllabus and introductory material. Questions on the quiz will pertain to policies, procedures, and the general format of the course. The quiz is meant as a vehicle to test students' understanding of the expectations for the course.
