Access to the Internet is required. Middlesex Community College provides computer facilities that include access to the Internet, and access to Microsoft Office application software products. Students who do not

have their own computers will find adequate facilities available for their use.

All students must have a Banner ID number to access college computer facilities. Instructions will be given in the efficient use of the extensive electronic library holdings.

All students may be required to complete other readings from periodicals, newspapers, and the Internet as a supplement to the required textbook readings.

**Several hours** per week of computer time are required for students to complete assignments prepare for online discussions.

**Preparation and Study Time:** You must prepare for each class by reading all assigned material and completing all homework activities prior to class. This course requires students to spend a significant amount of time outside of the classroom in individual and/or group study. At least one - two hours should be spent studying outside of the class for every hour spent in the classroom. Students who regularly prepare for class tend to successfully achieve their academic goals.

**Online Participation:**

Students should be able to do the following:

- Demonstrate reflective and critical thinking skills, which show the ability to ask necessary questions and critique existing viewpoints, including their own.
- Offer a unique and relevant perspective on class discussion.
- Respond to existing discussions and begin new trends of discussion, advancing and extending the concepts and ideas of the class.
- Respond to opposing viewpoints and opinions.

Each student is expected to contribute meaningfully to online class discussions. The wide range of interests and experiences held by class members will reflect the diversity of today's business organizations. We can all learn more from each other than from the instructor alone. The professor will evaluate each student's participation and contribution to the class. Your grade for class participation will be based on the content and quality of participation (rather than frequency), and initiatives to enrich discussions. See online participation rubric.

**Evaluation methods**
