

Blackboard - How to Grade Work submitted in an Assignment Dropbox

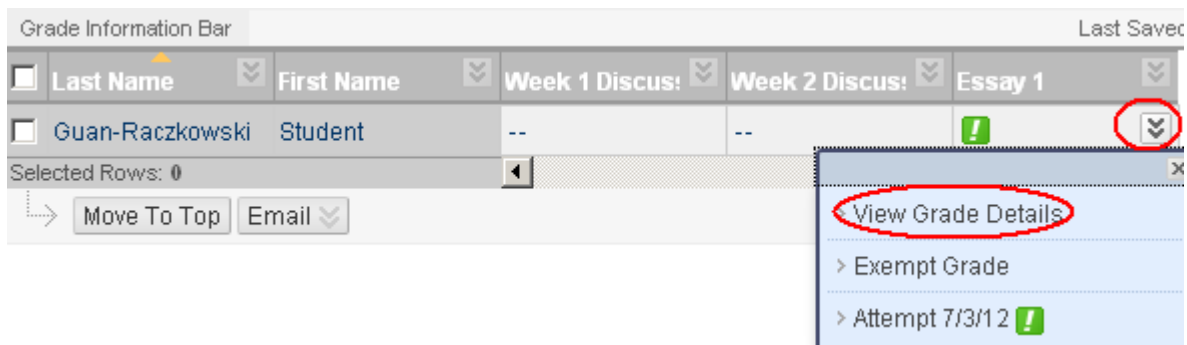

If a student has submitted his/her work in an assignment dropbox, there are two ways to grade the work and provide your feedback:

- (1) Open the file to review, write your comment in the comment box, and enter a grade.
- (2) If you would like to write your comment or edit the student work, you will download the file to your computer and use MS Word to edit and type your comment. Save the file using a different name and then upload it back to the dropbox for student to review.

1. You will go to Grade Center to grade students' work submitted in an Assignment dropbox. In "Control Panel", click on "Grade Center". Click on "Assignments".

2. In the Grade Center, you will see the assignment column. If a student has submitted his/her work, a ! notation is shown in the crossing "cell" of the student row and the assignment column. Click the action icon next to the ! notation. Select "View Grade Details".

3. At next page, select "Grade Attempt".
