### **Eligibility to Sit for the American Registry of Radiologic Technology Examination:**

Applicants who have been involved in a criminal proceeding or who have been charged with or convicted of a crime may file a request for pre-application review with the American Registry of Radiologic Technologists (ARRT) in order to obtain a ruling on the impact of the situation on their eligibility for certification or registration. A charge or conviction of, a plea of guilty to, or a plea of nolo contendere (no contest) to an offense that is classified as a misdemeanor or felony result constitutes a conviction for ARRT purposes. This includes situation in which the result is deferred or withheld adjudication or suspended or withheld sentence. Other reportable offenses include regulatory authority of Certification Board violations such as an action by a state or federal regulatory authority or certification board resulting in the individual's professional license, permit, registration, or certification being denied, revoked, suspended, placed on probation, or subjected to any condition. Honor Code violations such as suspension, dismissal, or expulsion from an educational program attended in order to meet ARRT certification requirements must be reported. Military court-martials must also be reported. The form that is necessary to file such a request and a complete explanation of the process can be found on the web at [www.arrt.org](http://www.arrt.org) under the Ethics section.
