Left = Laptop

Audiovisual Quick Start Guide

To Display Laptop

1. Connect one of the **PUCKS** located in the storage caddy on the top of the C-Pod Table to your device via **VGA or Mini Display Port**

2. Pressing the **Center of the PUCK** to display your device's screen content. This will show the content on the screen from your laptop or the Mac Mini.

System Shutdown

Disconnect Device from the PUCK – No need to power down the Mac Mini.
