

**Connecticut State Community College- Middlesex
School of Radiography**

Program Mission Statement, Goals and Student Learning Outcomes

Mission: The mission of the Connecticut State Community College Radiography Program is to provide a comprehensive radiography program that will graduate competent entry-level radiographers for the healthcare community.

**Student Learning Outcomes: (Based on JRCERT accreditation standards)
Upon completion of the Program:**

Goal 1: Student will demonstrate effective communication skills

Students Learning Outcomes:

- Students will use effective oral communication skills with a wide variety of audiences in the clinical setting.
- Students will practice effective written communication skills.

Goal 2: Students will utilize critical thinking skills.

Student Learning Outcomes:

- Students will assess images for diagnostic quality
- Students will assess images and make appropriate adjustment(s) as needed

Goal 3: Students will be clinical competent when performing entry level imaging procedures.

Student Learning Outcomes:

- Student will accurately position patients for radiographic procedures based on patient assessment
- Students will select appropriate technical factors to obtain diagnostic quality images based on patient assessment
- Students will practice radiation safety.

Goal 4: Students will demonstrate professional behavior

Student Learning Outcomes:

- Students will demonstrate professionalism in the program
- Students will participate in professional activities with state and national organization

The Program's mission is achieved when the graduate has successfully completed and achieved all Program Goals and Outcomes. The program mission complements the missions and values of our clinical affiliates.
